

ABOUT US

From day one, it was plastics. Our focus was clear, steady and committed. And so it remains today.

We stayed faithful to our core competence but expanded and deepened our knowledge of plastics, incorporating the latest technological advances from across the world.

Qualities, Innovation & Customer Focus are the beacons that have constantly lit our path. Our products stand out for their striking designs that become attention-grabbers anywhere they go. Our meticulous attention to detail ensures that each product is user-friendly, safe and durable. The thread that connects them is world-class quality.

OUR VISION

"To be the largest player with the most durable products in each of the company's product segement.'

OUR MISSION

Become gloabally competitve in the field of plastic moulded products by pushing the frontiers with innovative and customised path-breaking solutions for diverse industries.

KEY STRENGTHS

Our Products are designed with premium quality material and technology, thus, ensuring a great investment for bright smiles on the faces of young ones.

OKPlay products are available in a range of attractive, UV stabilized colors.

OKPlay products are produced using different molding technologies such as rotational, blow and injection molding.

Our designs and products always stand out from our competitors. Innovation is one of the key factors driving our brand forward.

We never compromise with the quality of our products, as we know our consumers need only the best. We only use 100% virgin, non-toxic, fire retardant and UV stabilized raw material.

All our products comply with European EN 1176 standards. This ensures ease of installation with the help of standardized instructions in place.

We design our products keeping in mind our young ones and their smiles. Our everyday motto is to ensure that it is not compromised.

We are very flexible with the design of our products and can customize them as per your requirement.

Part 1 - Dash and the Dino World

Welcome to the year 2200 – a dark grave world of mounting skyscrapers, futuristic gadgets and whatnot. The skyscrapers have taken over the world and left no space on the earth for forests, parks, gardens, and children parks.

The children of this world are captivated inside their homes glued to their gadgets – the only form of playing they know. Saddened by this dire condition of the world, Dash takes the responsibility of saving all the children from the prison of gadgets on his shoulders. After all, he's the superhero who every child loves and adores. In this space-crunched world, he decides to create a space where the children can play outdoors safely – not an easy task. In search for ideas, he sets out to explore different worlds. He turns on his time machine and swooshes' back the furthest in the time to the Dino world.

There he sees Rox, a small little Dino, hanging and sliding up and down the trees. In that moment, an idea struck Dash like a lightning bolt - to create a play area where children will be able to do all that that the little Dinosaurs are doing.

Far off, he sees Raptar – a huge green-colored Dino playing with his other friends, Theco and Todd. He sees them sliding down the spiral waterfall tunnels and jumping on the bridges. In his mind, he is imagining children of his world doing the same.

He meets the Dinosaurs and becomes friends with them, and so many more of them. Using his superpowers, he makes play areas with the help of his new friends. He names these play areas on his friend's names as a gesture to thank them for their help. He now needs to take these back to his world. He bids his friends goodbye, plugs in his time machine, and leaves the Dino world.

Part 2 - Stuck with Mother Nature

Dash is on his way back in his time machine. To savor the moment, he takes his eyes off the control panel and looks out of the glass to enjoy the spectacular view of the cosmos. As he does that, something unexpected happens.

He loses control of the time machine.

The time machine crashes.

Dash survives.

As he opens his eyes, he sees forests, animals, birds, and rivers. He is mesmerized. He is in a new world - a world where there are no humans, just the beautiful nature. The beautiful nature amazes him but he also feels sad that people of his world never got to see this incredible beauty of nature.

He promises himself that he will have the children of his world experience the beautiful world of Mother Nature. He decides to make more play areas where the children of his world can also experience the wonder of nature.

He captures the beauty of different seasons, meadows, animals; rivers in these play areas and name them such.

He now needs to get back to his world with all the play areas. There's just one problem - If he has to get back to his world, he needs to fix the time machine himself without any resources.

Part 3 - Dropped in Castles

It's been months.

After many failed attempts, Dash has finally been able to fix the time machine. Well, most of it. There's one thing he still hasn't been able to fix – the time controller. Without it, he can't control which time/world he lands in. After many failed attempts of fixing it, he decides to leave it on his luck. It's risky but his only option!

Hoping that it will work, he turns on his time machine and takes off from this world.

To his fear, the timer does not work fine. He lands in a world ruled by the kings and queens, who lived in their glorious castles and mansions. He also ends up landing where he should not have - the king's castle!

The king is furious. He calls Dash in his chambers and asks Dash - how dare he enter his castle without his permission? Dash knows he's in trouble. He explains everything to the king - from the dire situation of his world to his broken time machine.

Dash's story melts the king. The king decides not only to let him go but also to gift him more play areas for the children of his world. He asks his ministers to build them like the various castles, forts, palaces, manors and other estates of his.

The ministers did as the king demanded. They gifted Dash more play areas and then bid him goodbye.

With even more play areas; he now takes off in his time machine again, leaving it onto his luck with the broken timer.

Part 4 - Taste of the Future

Dash is back in his time machine, again hoping for his luck to work. But his luck isn't ready to help him just yet.

He fails yet again, doesn't land in his world and goes all the way to the future world – the world of Robots. He sees robots everywhere – walking on the roads, driving cars, and working in offices.

The very next moment, he hears somebody call him. He turns his head, only to see Otis – an orange robot with many arms. Otis asks him if he is lost. Dash tells him everything, like he explained it to the king.

Otis laughs at Dash. Dash is confused. Otis tells him that he is laughing because he could not fix the time controller by himself. Every robot in this world could have done that, says Otis.

Dash feels a little humiliated but also happy to hear that Otis can fix his time machine. He asks for his help.

Otis agrees to help him but only on one condition – if he will make more play areas to show the children of his world the Robot world too, like he's made play areas for every world he's visited.

Dash agrees in an instant. He has finally found a way to get back to his world. Dash makes more robot play areas with Otis and Otis fixes his time machine.

Dash can now get back to his world.

He leaves the Robot world and gets back to his own world. There, he calls every child out of his home and shows them what he's got for them. Children of his world have never been any happier.

And just like that, he takes off!

Double Sit-up Board

OKP_OGE_15

Actual Dimensions (L x W x H) : 6'2" X 4'9" X 4'1"

Age Group : 14-80 years No. of individuals : 2 After the Tsunami Tragedy had struck India, schools were being rebuilt and furnished. UNICEF gave an order to OK PLAY for supplying school furniture to them. As a part of our standard process, wherein customer feedback was solicited, a school principal said "Your furniture is so nice and bright that children come to school just to get an opportunity to sit on it". '

This was the spark we required to ignite the desire to create the unique and interesting options in school furniture for the young ones. We came up with dinosaur series to bring in the creative quotient in class along with igniting the curiosity of little minds about the bygone times.

Environment is one of the most burning topics now and what is the best way to inculcate importance of it than bringing the use of the same in everyday life and activities, therefore our inspiration for the Nature collection furniture.

Advancement of the world has brought technology in every sector and why the kids, future of our country, should be left behind in this development. This was the inspiration behind the concept and creation of Robot series furniture.

Who does not love prince and princesses? Each one of us has dreamt of becoming a king or a queen after growing up. We wanted to pass on the imaginative and beautiful world to the upcoming generation adding a little bit of creativity to ignite the curiosity and therefore standing is our Castle Collection.

Customisation

At OK Play, we offer 3D layout designs to our esteemed customers including the option of customizing outdoor models as per their requirement. These 3D layouts help customers get a visual understanding of their respective play areas with our models installed. At OK Play, we believe that customization is essential due to space and budget contraints. To incorporate the same, we have a dedicated team of designers to provide such layout options to the customer free of cost.
